

Dear Agent Partners:

We are excited to share that we will now refer to a select collection of Signify North America luminaire brands as Genlyte Solutions. Genlyte Solutions includes Alkco, Chloride, Day-Brite CFI, Gardco, Hadco, Ledalite, Lightolier, Lumec and Stonco. The addition of the Genlyte Solutions name will help distinguish the portfolios managed by the current Signify and the Cooper Lighting Solutions teams, each operating under the parent company, Signify.

We will refer to Genlyte Solutions on our website and in relevant communications only. There is no impact on any operational aspects of the business. There will be no changes to any products or part numbers. None of the existing brand logos or materials will be modified. We will continue to focus on prominently displaying our individual, industry-leading luminaire brands.

Thank you for your continued partnership. We look forward to recognizing the growth of Genlyte Solutions with you in 2021.

Best regards,

A handwritten signature in black ink, appearing to read 'Keith Eagle'.
