SOLD OUT LEDucation 2024 Sessions

As of March 13, 2024. Please consult LEDucation.org for the most up to date information.

1. **Creative and Practical Design Strategies for Delivering Visual and Non-visual Benefits of Lighting**
   - Presenters: Daniel Frering, Icahn School of Medicine at Mount Sinai | Mariana Figueiro, Mark Rea, and Jennifer Brons, Light and Health Research Center, Mount Sinai

2. **Deciphering Code Updates for IECC and ASHRAE 90.1 Lighting and Control Requirements**
   - Presenters: Mike Lehman, ConTech Lighting, a Leviton Company | Joe Briscoe, Leviton

3. **Recommendations vs Reality: 3 million eye-level spectral measurements taken in factory and office spaces have a thing or two to teach us about lighting for human health**
   - Presenters: Wendy Luedtke, ETC | Andrea Wilkerson, Pacific Northwest National Laboratory | Jessica Collier Kelly, Pacific Northwest National Laboratory

4. **A Brighter Tomorrow Lighting for the Workplace of the Future**
   - Presenters: Jessica Smith, Stantec | Alison Fiedler, Stantec | Rachel Fitzgerald, Stantec

5. **Light Me The Way Home: Residential Lighting Design**
   - Presenter: Deborah Gottesman, Gottesman Associates

6. **Facade Lighting: Reducing Its Contribution to Skyglow**
   - Presenters: Craig Bernecker, The New School, Parsons School of Design | Ajin Cho, Domingo Gonzalez Associates

7. **Adapting to the new requirements of UL 924 Emergency Lighting: Challenges and New Opportunities**
   - Presenter: Eric Miller, Avi-on Labs, Inc.

8. **A Refined Approach to Exterior and Landscape Lighting within DarkSky Recommendations**
   - Presenter: Kathryn Toth, Theia Lighting Design

9. **Specifying Sustainable Luminaires**
   o Presenter: Scott Roos, Acuity Brands

10. **Specifying for Success with Today's Wireless Mesh Controls**
   o Presenters: Rita Renner, McWong International | C. Webster Marsh, Penumbra Controls

11. **A Five-Step Human-Centric Lighting Design Process for Your Next Project**
   o Presenters: Tony Esposito, International WELL Building Institute | Kevin Houser, Oregon State University

12. **Not All RGBW Is The Same: Challenges of designing RGBW luminaires**
   o Presenter: David Grassi, Lumenpulse Lighting Inc.

13. **Catching Up with Bluetooth® Technology and DALI: Advances in Interoperability, Technology and Applications**
   o Presenters: Carol Jones, DALI Alliance | Henry Wong, Bluetooth Special Interest Group | Stephen Zhou, McWong International

14. **Lighting Design and AI – The Future is Here**
   o Presenters: Lisa J. Reed, Reed Burkett Lighting Design | Carla Bukalski, Focal Point

15. **A Path Through the Wilderness of Lighting Control Specification**
   o Presenter: Shoshanna Segal, Hartranft Lighting Design

16. **Bursting the Melatonin Bubble: New Perspectives for Human-Centric Lighting**
   o Presenter: Dr. Shelley James, Age of Light Innovations
